

A Report On

Report on ESDP on Solar Entrepreneurship for New Entrepreneurs and Vendors

Organized By

Indian Institute of Entrepreneurship (IIE)

in collaboration with

Nonoi College

** 📅 Date:** 24th January 2026

** 🕒 Time:** 10:00 AM onwards

** 📍 Venue:** Seminar Hall, Nonoi College

****NOTICE****

All students, aspiring entrepreneurs, vendors, and interested faculty members are hereby informed that an ****Entrepreneurship Skill Development Programme (ESDP) on “Solar Entrepreneurship for New Entrepreneurs and Vendors”**** will be organized as per the details given below:

**** 📌 Organized by:****

Indian Institute of Entrepreneurship (IIE)

in collaboration with

Nonoi College

**** 📅 Date:**** 24th January 2026

**** 🕒 Time:**** 10:00 AM onwards

**** 📍 Venue:**** Seminar Hall, Nonoi College

**** 📎 Resource Person & Demonstrator:****

Mr. Surajit Singha

The programme aims to create awareness about ****solar energy-based entrepreneurship****, provide practical knowledge on solar technology, and motivate participants to explore sustainable business opportunities in the renewable energy sector.

Interested participants are requested to attend the programme positively and make the best use of this learning opportunity.

ENTREPRENEURSHIP SKILL DEVELOPMENT PROGRAMME (ESDP)

ON

SOLAR ENTREPRENEURSHIP FOR NEW ENTREPRENEURS AND VENDORS

Organized by

Indian Institute of Entrepreneurship (IIE)

In collaboration with

Nonoi College

 **Date: 24th January 2026**

 **Time: 10:00 AM onwards**

 **Venue: Seminar Hall, Nonoi College**

Resource Person & Demonstrator

Mr. Surajit Singha

Expert in Solar Technology & Entrepreneurship

About the Programme

The Entrepreneurship Skill Development Programme (ESDP) on **Solar Entrepreneurship** is designed to empower **new entrepreneurs and vendors** with essential knowledge and practical skills in the rapidly growing renewable energy sector. The programme focuses on promoting **sustainable, eco-friendly, and profitable solar-based business opportunities.**

Objectives

- To create awareness about solar energy and its applications
 - To promote solar-based entrepreneurship and self-employment
 - To provide practical exposure through live demonstrations
 - To guide participants on business models, funding, and marketing strategies
 - To encourage sustainable and green business practices
-

Key Sessions

- Introduction to Solar Energy & Solar Technologies
- Types of Solar Systems: On-grid, Off-grid & Hybrid
-
- Solar Components: Panels, Inverters, Batteries & Controllers
- Business Opportunities in Solar Entrepreneurship
- Financial Planning, Government Schemes & Funding Support
- Live Demonstration on Installation & Maintenance
- Interactive Q&A Session

Who Can Participate

- Aspiring and new entrepreneurs
- Local vendors and business owners
- Students interested in entrepreneurship
- Self-help groups and startup aspirants

Why Attend?

- ✓ Learn from industry experts
- ✓ Gain practical, hands-on experience
- ✓ Understand profitable solar business models
- ✓ Explore government support and subsidies
- ✓ Contribute to sustainable development

Certification

All participants will receive a **Certificate of Participation**.

Report on ESDP on Solar Entrepreneurship for New Entrepreneurs and Vendors

An Entrepreneurship Skill Development Programme (ESDP) on “Solar Entrepreneurship for New Entrepreneurs and Vendors” was successfully organized by the Indian Institute of Entrepreneurship (IIE) in collaboration with Nonoi College on 24th January 2026 at the Seminar Hall, Nonoi College. The programme commenced at 10:00 AM and witnessed enthusiastic participation from students, aspiring entrepreneurs, local vendors, and faculty members.

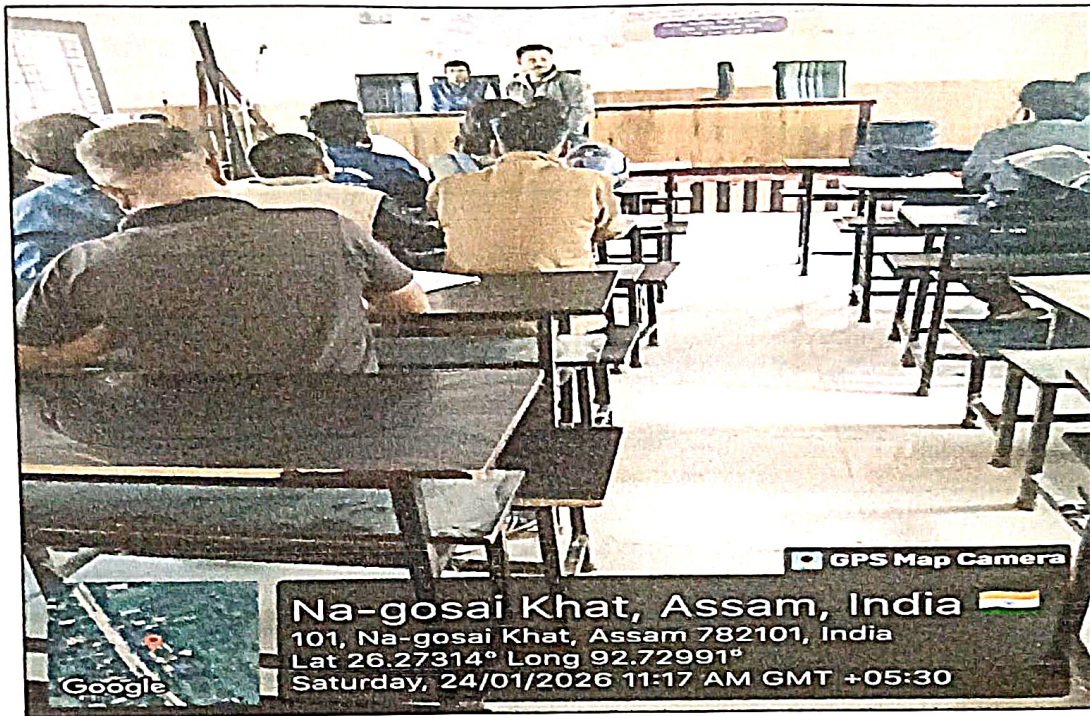

The primary objective of the programme was to **create awareness about solar energy-based entrepreneurship**, enhance entrepreneurial skills, and motivate new entrepreneurs and vendors to explore sustainable business opportunities in the renewable energy sector. The programme also aimed to familiarize participants with the technical, financial, and marketing aspects of solar enterprises.

The session was conducted by **Mr. Surajit Singha**, who served as the **Resource Person and Demonstrator** for the programme. He provided in-depth insights into the growing scope of solar energy in India and emphasized its role in sustainable development and employment generation. His deliberations covered fundamental concepts of solar technology, types of solar systems, components involved, and their practical applications in both rural and urban contexts.

A major highlight of the programme was the **live demonstration session**, where Mr. Singha practically explained the installation, functioning, and maintenance of solar systems. Participants were introduced to real-life business models related to solar product vending, installation services, and maintenance support. He also discussed **startup costs, government schemes, funding opportunities, profit margins, and marketing strategies**, which proved highly beneficial for aspiring entrepreneurs.

The programme encouraged interactive participation, and a dedicated **question-and-answer session** allowed participants to clarify their doubts regarding technical feasibility, regulatory requirements, and challenges faced in solar entrepreneurship. The resource person also shared success stories and practical experiences, motivating participants to adopt solar-based ventures as a viable and eco-friendly business option. Overall, the ESDP proved to be **highly informative, practical, and motivating**, equipping participants with essential entrepreneurial skills and knowledge related to the solar sector. The programme successfully fulfilled its objectives by fostering entrepreneurial awareness, promoting green energy solutions, and encouraging self-employment opportunities among new entrepreneurs and vendors.

The programme concluded with a **vote of thanks**, expressing gratitude to the Indian Institute of Entrepreneurship, the resource person, college authorities, and all participants for their active involvement and cooperation, which contributed to the success of the event.
